

Enterprise Studio eLearning course

Did you know that BiZZdesign offers eLearning courses to learn more about Enterprise Studio? Advantage of an eLearning course is that you can follow it whenever and wherever you like, you only need a laptop or computer with internet access and Enterprise Studio installed.

The BiZZdesign Enterprise Studio eLearning course provides you with a complete overview of BiZZdesign Enterprise Studio. You will also learn how to apply the ArchiMate® language and the Business Process Modeling and Notation (BPMN) standard in BiZZdesign Enterprise Studio.

For more information and prices, just click the link below to open the eLearning course product page. From there you can also apply for the course.

If you have any questions about the eLearning course, or if you would like to organize a course in-company, please contact BiZZdesign Academy via the Contact button on the product page.
